Stichwortverzeichnis Web Engineering

A
access structure 109
acquisition 137
acquisition guide 165
administration system 145
administrator guide 166
advanced search 87
advanced Web site 152
advertising link 31
affiliates program 63
aggregating 139
aggregation 84
API 178
application software 179
article information 101
ASCII 103
associative link 18, 71
attribute 182
attribute, DTD 186
authoring 137
authoring guide 164
autodiscovery 157
B
background effect 105
behavior-based personalization 151
beta system 170
binary format 102
boolean search 87
borderless frames 36
breadcrumb navigation 77
breadth 75
C
campaign-based personalization 151
cascading style sheets 33
catalog 156
catalog information 101
categorization 157
CDATA 184
character formatting 105
CMS 136
CMS overview 164
collection service 143
collection system 136
commercial host 160
common interest domain 158
communication rule 140
community 158
component class 106
component instance 106
configuration file 145
consistency rule 140
constraint 185
content 98
content 116
content database 145
content design 42
content file 145
content management 127
content management industry 128
content management system 136
context 116
control file 145
converting 139
copy editing 44
copying 192
correctness rule 140
credibility 39
cross-platform design 5
CSS 33
cultural norm 105
D
data 98
data 120
deep linking 63
deployment 162
deployment manager 129
deployment specification 172
deployment tool 131
depth 75
design creationism 83
design darwinism 83
divisional structure 109
documentaion plan 173
documentation 163
DTD 185
dynamic Web site 131
E
e-commerce 155
editor 43
editorial guide 166
editorial processing 140
electronic publication 149
element 181
element, DTD 186
embedded link 71
embedded style sheet 33
emphasis 104
encapsulated functionality 113
enterpride CMS 133
entity constant 183
entity reference 183
entity, DTD 187
example-based representation 84
F
file format 102
filtering 84
final system 170
format 103
format mapping 139
formatting by scope 105
formatting by type of effect 105
formatting for effect 104
frame 35
full Web CMS 133
functionality 112
G
generic installation 168
H
high-level API 177
home page 57
home page width 61
host 160
I
importance 104
inclusional structure 109
incoming link 30
information 99
information 122
inner structure 110
installation inertia 9
interest 105
interior page 63
interoperability 176
K
keep-alive 18
keyword 89
knowledge 124
knowledge management 157
knowledge portal 157
L
layout effect 105
legacy system 156
link coloring 24
link description 20
link expectations 25
link manager 129
link title 23
link-dominant user 86
linked style sheet 33
linking 18
looping 192
low-level API 177
M
maintenance plan 174
management structure 109
management system 143
meaning 11
meaning 116
member 159
member host 160
message service 160
META tag 89
metadata 100
metaphor 64
metatorial guide 165
metatorial procesing 142
micro-navigation 86
mix-and-match functionality 112
mixed-behavior user 86
money-exchange 156
monolithic functionality 112
multiple namespaces 188
multiple publication 153
N
names 119
namespace 184
native state 168
navigation 68
navigation support 68
navigational clutter 84
nominal Web CMS 129
non-standard content 8
O
online communities 158
outbound link 26
outer structure 110
outlining 131
P
page chunking 49
page description 89
page design 1
page formatting 105
page size 17
page template 130
page title 54
paragraph formatting 105
parsability 105
parser 178

peoplelink 26
personalization 151
plain language 48
platform transition 11
portability 175
PostScript 41
presentation 11
print publication 149
printing 40
product documentation 164
production installation 169
profile-based personalization 151
publication formatting 106
publishing service 148
publishing system 147
publishing template 147
purpose 118
R
registration, linking to 31
rendering format 103
repository 144
resolution-independent design 7
response time 14
revising 171
rhetoric of arrival 26
rhetoric of departure 26
root element 181
S
scannability 45
search capabilities 86
search destination design 93
search results page 89
search-dominant user 86
see-also-list 18
segmentation processing 141
segmented functionality 112
semantic encoding 11
server response time 15
shared functionality 112
shopping cart 68
shopping mechanics 157
site design 55
site structure 73
speed 16
splash screen 62
sreen real estate 2
staffing plan 172
status 100
status function 130
stripping 139
structural navigation link 18, 71
structure 106
structure below the radar 110
structure by purpose 109
structure by scope 110
structure by type 109
structure mapping 139
structuring for a content base 109
structuring for a single publication 109
style guide 104
style sheet 33
subpublication formatting 105
subscription, linking to 31
subsite 85
succint 43
summarization 84
super-user 10
suprapublication formatting 106
syndication 149
synthesis 157
T
template guide 166
text 125
third-party software 169
training 167
training plan 173
transaction information 101
transformation 189
tree, XSL 189
truncation 84
typographic effect 105
U
Unicode 103
unparsed data 184
upgrade 9
user service 160
W
web attitude 43
